

ZAKARIA ANWAR SAFI

Front-End Developer | React Specialist | UI/UX Enthusiast | Modern Web Architect

Palestine | +970 597986160 | zeka12345678998765432@gmail.com | github.com/zakad00e2

CAREER SUMMARY

Passionate and detail-oriented Front-End Developer specializing in React, Redux, and modern UI design. Experienced in building responsive, high-performance web applications that merge functionality with visual appeal. Proficient in integrating Firebase, optimizing user flows, and developing component-based architectures. Known for clean code practices, effective collaboration, and an eye for design that elevates user experience. Dedicated to continuous learning, adaptability, and developing high-impact digital interfaces that delight users and deliver measurable results.

KEY SKILLS

Technical Skills: React.js | Redux Toolkit | JavaScript (ES6+) | HTML5 | CSS3 | Bootstrap | MUI | Firebase | REST APIs | Responsive Web Design | Git & GitHub | Figma

Soft Skills: Analytical Thinking | Creativity & Aesthetics | Team Collaboration | Communication | Time Management | Problem Solving | Adaptability | Self-Learning

PROFESSIONAL EXPERIENCE

Freelance Front-End Developer — Remote (2024 – Present)

Developed dynamic, responsive web interfaces and portfolio websites for local clients. Focused on optimized performance, intuitive UI, and modern animations. Delivered SEO-friendly codebases aligned with accessibility and cross-browser standards.

Web Development Intern — 2023

Assisted in maintaining front-end components and debugging JavaScript issues. Improved site load speed and responsiveness for small business and academic websites. Collaborated with senior developers on UI enhancements and component testing.

PROJECTS

Admin Dashboard (React + Redux + Firebase): Built a complete admin panel with dynamic charts, authentication, and real-time data updates. Integrated Firebase for role-based access and scalable data handling.

E-Commerce Platform (React + RTK): Developed an interactive shopping interface with state management and product cart features, focusing on modular architecture and smooth navigation.

Portfolio Website (HTML/CSS/JS): Designed and deployed a personal portfolio showcasing projects with fluid animations and responsive design.

Landing Page for Startup (Freelance): Created a fast, SEO-optimized landing page with modern layout grids, adaptive content, and clean branding aesthetics.

EDUCATION

University of Palestine — Bachelor of Science in Software Engineering (Expected 2025)

Relevant Coursework: Web Application Development, Database Systems, Human-Computer Interaction, Algorithms & Data Structures, Cloud Computing.

CERTIFICATIONS

React Development — Udemy (Jonas Schmedtmann)

HTML/CSS/JavaScript Fundamentals — Instructor: Mohammed Qumboz

Responsive Web Design — FreeCodeCamp

AWARDS & ACHIEVEMENTS

Top Project Recognition — Excellence in front-end coursework.

Academic Projects Showcase — Presented interactive React projects at the University of Palestine.

Self-Learning Milestone — Completed advanced React & Firebase modules independently.

DESIGN PHILOSOPHY

"I believe that great interfaces are where aesthetics meet functionality. My goal is to create digital experiences that are not only efficient but emotionally engaging—every click should feel effortless and meaningful."
